THE HOW-TO GUIDE

Add Nest Learning Thermostat™ and Nest Protect: Smoke + Carbon Monoxide™ to Scout

-Step-by-step instructions to integrate Nest with Scout-

If you have a Scout system and Nest products you can integrate them to control them from one place: your Scout account.

To setup the integration, login into your Scout account on your iPhone app, Android app or on the web, and follow the steps outlined in this document.

- 1. Go to your Devices page
- 2. Select Works with Nest under Integrations:

3. Scroll down to the bottom of the below page to select to login to your Nest account:

Scout Security Inc would like to do the following:

Set Home and Away.

Allows Scout to set Nest to Home/Away for each Scout mode. When arming a Scout mode, your Nest will be change to the preset status for that

See your Nest Protect's smoke, carbon monoxide, and battery info. 4. Login to your Nest account on the below screen:

5. Select the Nest Location you want to integrate with Scout:

SELECT NEST LOCATION

Ski Home

Home

Changing the associated nest location will remove all Nest products and Nest Away/Home state settings from this Scout location 6. After selecting the Nest Location you want to add, based on the Nest devices you own, you will see your Nest devices populate below. For example, below you can see two Nest Protects for this Nest Location:

Carrier ຈ	10:37 AM	_
Done	Works with Ne	St remove
SELECT	NEST LOCATION	
Ski Hor	ne	~
Home		
Changing the associated nest location will remove all Nest products and Nest Away/Home state settings from this Scout location		
ADD NES	ST PROTECTS	
Bedroo	em (Timmy's)	
Kitcher	1	
Select wh this Scou	nich Nest Protects you w It location	ant to add to
SET NES	T AWAY / HOME	
Home of	on Disarm	\bigcirc
Set Nest	Thermostats to Home sta	ate when
-11		

7. If you have Nest Protect(s), you can select the Nest Protect(s) you want associated with your Scout location:

Carrier ຈ	10:45 AM		
Done	Works with Nest	remove	
SELECT			
OLLUTI			
Ski Hor	ne	~	
Home			
Changing the associated nest location will remove all Nest products and Nest Away/Home state settings from this Scout location			
ADD NES	ST PROTECTS		
Bedroo	m (Timmy's)	~	
Kitchen	1		
Select wh this Scou	nich Nest Protects you wan t location	t to add to	
SET NES	T AWAY / HOME		
Home o	on Disarm	\bigcirc	
Set Nest	Thermostats to Home state	e when	

8. Scroll down on the same page and if you have Nest Thermostat(s), you can select AWAY/HOME based on the Scout modes you have setup. For example, if you want your Nest Thermostat to be set to Away when your Scout is set to Away mode, select Away:

*Please note: "Home on Disarm" will set your Nest Thermostat to Home state when you disarm any Scout mode.

Carrier 穼	10:45 AM				
Done	Works with N	lest	remove		
Kitchen	1				
Select which Nest Protects you want to add to this Scout location					
SET NEST AWAY / HOME					
Home on Disarm					
Set Nest Thermostats to Home state when disarming any Scout mode					
Home mode		Home	Away		
Away mode		Home	Away		
Sleep mode		Home	Away		
Vacation mode		Home	Away		
Choose which Scout modes will update your Nest Thermostat with Nest Home/ Away, double-tap to unselect a setting					

9. Once complete, you will see your Nest Protect(s) under your Devices page in your Scout account:

10. In your Activity Feed, you will see your Nest Protect pairing notification. If your integrated Nest Protect is triggered, they will now appear in your Activity Feed. Here is an example of what that will look like during a carbon monoxide detection. This will be the same type of notification you will see if smoke is detected:

Carrier 죽	> 11:38 AM 🔛				
•	monitor 📋				
Mar 9, 2015					
	Bedroom (Timmy's) carbon monoxide level is decreasing 11:38 am				
	Bedroom (Timmy's) detected carbon monoxide 11:38 am				
٠	Bedroom (Timmy's) detected carbon monoxide, alarm is sounding 11:37 am				
	Bedroom (Timmy's) detected carbon monoxide 11:36 am				
6	Bedroom Nest Protect (Timmy's) was paired 11:36 am				
	Dave disarmed Home mode 11:36 am				
۲	Dave armed Home mode 11:36 am				
	R E				

11. Now when you go into your edit a Mode, you can add your integrated Nest Protect to your Scout Mode. If Nest Protect is triggered, it will trigger the "Then" reaction defined in that mode.

Carrier 🗢	11:39 AM		 •
< edit mod	e.	?	\square
Away			
lf			
•			
		Bedroo	m
Dave's Desk	Fridge Access	(Timmy	's)
Then			
:	X		((ا
countdown			
chirps	alarm delay	siren	
_	ø		ç
push notification	email notification	text mess notificat	sage ion
B			

12. When you arm your Scout Mode on your Alarm page, you will be asked to Confirm Nest Home/Away based on your pre-defined settings in Step 8. Below is an example of confirming* Nest Away when arming the Office to Away mode:

*The confirmation button is temporary and if not selected, will disappear.
